

## STATISTICAL REPORTS PROGRAM

In addition to this Annual Bulletin, the National Agricultural Statistics Service publishes timely estimates on crop and livestock production, prices and various other special reports. A list of the more important reports and the approximate date of release is shown in the table below.

Many statistics for Oklahoma from these reports are published in the twice-monthly **Oklahoma Farm Statistics**, which is provided free of charge on the Internet at the following address:

<http://www.nass.usda.gov/ok/pubs.htm>

All reports are free to Oklahoma farmers and agribusinesses who provide data to this office, the news media, state and local government and educational institutions. There is a minimal charge for the printed version of the Oklahoma Farm Statistics and Crop weather for all other subscribers. These printed reports may be obtained from filling out the report order form on page 103 of this bulletin.

TYPE OF REPORT	FREQUENCY OF REPORT	APPROXIMATE DATE AVAILABLE
